

GF TOP

The life-extension-fluid for your bevelers and saw blades

The lubrication is a synthetic high performance lubricant for cutting and beveling.

It complies with USDA H2 registration and is therefore suitable for food and beverage applications.

Your advantage:

- Suitable for food application*
- High tool life
- Reduced tool costs
- Silicon-free

GF TOP is equipped with a little screw on brush to precisely apply the lubricant onto the tool.

Fine lubrication by Georg Fischer

GF TOP

The lubrication is a synthetic high performance lubricant for cutting and bevelling. It complies with USDA H2 registration and is therefore suitable for food and beverage applications.

180 g
Code 790 060 228

Universalfliuid QUIETSCH-EX® Spray

Multiple application for lubrication, dissolving rust and dirt as well as protection against corrosion, CFC free.

Can of 250 ml
Code 790 060 222

Saw blade lubricating compound

Increases the saw blade life-time.

150 ml
Code 790 041 016

Cutting lubrication KSS TOP

The water soluble, fully synthetic cooling fluid extends tool life of the MFW.

500 ml
Code 790 060 226

Special gearing oil

For all RA types.

200 ml
Code 790 041 030

Thread cutting compound NORMOLIC® S

For drinking-water installations according to SVGW regulations.

Can of 10 l
Code 790 051 263

Thread cutting compound SPN PARALIQ® PLUS

Pressure absorption capacity 4 times higher than required according to DVGW worksheet W 521 – highly increased service life of the chasers.

500 ml
Code 790 060 207

* Suitable for use in the food-processing and pharmaceutical industries provided that a contact with the food product is absolutely impossible.
