Instruction for use

TECHNICAL DATA

RUST KILLER - DECONTAMINANTS FOR STAINLESS STEEL

Liquid Decontaminant for austenitic steels

PRODUCT FEATURES

RUST KILLER is an environmentally friendly, chlorine ion-free liquid solution designed to **dissolve oxides and decontaminate austenitic stainless steel surfaces**. This product is particularly effective both after chemical pickling, ensuring a uniform surface, and after mechanical removal of weld oxides, such as abrasion, brushing, satin-finishing and micro-blasting.

RUST KILLER can be used on aluminum and its alloys, also in dilution up to 50%.

INSTRUCTIONS FOR USE

Instructions on how to use the product follow:

- **PREPARATION**: always carry out a preliminary test on a concealed surface to simulate the desired results;
- **APPLICATION**: apply the product by spraying or with a synthetic sponge and leave for 5-20 minutes.

  It is important to note that prolonged exposure on glossy stainless surfaces can cause matting;
- **RINSING**: rinse with cold water under pressure or sponge, drying the surface if necessary;
- **POST-TREATMENT PRECAUTIONS**: to avoid halos when drying, carry out a final wash with demineralised water.

RUST KILLER usage parameters may vary depending on specific conditions. Delmet is always available to give you advice on how to treat the surface correctly.

PRECAUTIONS FOR USE

Before use, be sure to use appropriate personal protective equipment (PPE) and protect your eyes. Carefully follow the precautions given in the product's Material Safety Data Sheet.

WASTEWATER DISPOSAL

Waste water generated during rinsing is acidic and must be disposed of in accordance with current

environmental regulations. In particular, it may not be discharged directly into the environment unless it is properly purified.

Delmet offers manual or automatic equipment for this type of treatment.

AVAILABLE FORMATS

RUST KILLER is available in various formats to suit your needs:

- **6x850 g pack** of RUST KILLER (code PC01572)
- **25 kg tank** of RUST KILLER liquid (code PC01573)
- **1200 kg tank** of RUST KILLER liquid (code PC01574)
