

KIT 309 STANDARD

New

Description

KIT 309 are professional welding machines equipped with a high-powered transformer, robust all-metal wire shift with a high-powered motor, a EURO connector and high-powered electronics.

The main advantages are excellent welding capabilities, 10-grade voltage control, high power, high load factors, high reliability and very easy operating.

Usage

Machines are designed for production in medium-heavy or heavy engineering, maintenance plants, metal-working industry, locksmithery or utility rooms.

TECHNICAL DATA

KIT 309

Code	50702
Power supply 50/60 Hz	3x400V
Protection - slow A	16
Welding current range A	30-250
Output voltage settings V	17,7-39,2
Duty cycle 100% A	170
Duty cycle 60% A	200
Duty cycle 30% A	250
Mains current / input 60%	9,5A/6,6KVA
Number of adjustment point	10
Digital volt ammeter	no
Wire feed	2-kladka
Standard rolls shoulder	1,0-1,2
Wire feed speed	1-25 m/min
Diameter of wire - Steel	0,6-1,2
- Al	0,8-1,2
Protection degree	IP 21
Standards	ISO/IEC 60974-1, EN 50199
Dimensions mm	800x490x740
Weight Kg	88

Distributor:
